

## **2013 CAPTG Workshop**

*Monday, September 9, 2013  
Westin Ottawa, Ottawa, Ontario*

### ***Asphalt Paving and Maintenance – HMA Plant Tour and Maintenance Demo***

About 80 percent of all runway surfaces in North America are asphalt surfaced. With that in mind, this year's workshop will provide an overview of the hot mix paving process from mix design to final paving. Maintenance issues and techniques will also be addressed. Although there will be information that applies to all levels of service, issues particular to smaller airports will be provided.

In addition to the presentations, there will be a tour of a working hot mix plant to see how the product is put together. While at the plant, there will be an opportunity to view various maintenance procedures and equipment. Although there will not be an opportunity to witness any airside paving, there will be an opportunity to visit a local paving site to witness laydown procedures and to discuss issues.

Come join us for this unique professional development and networking opportunity!

#### **Registration Details**

*The cost is \$180 plus GST. Breakfast, lunch, coffee breaks, and all tour transportation costs are included! Register on-line @ <http://www.swiftconference.org/Registration.html>*

**\*\* Note: Sustaining Members need to register directly with the CAPTG Secretary (Email: [myron.thiessen@forces.gc.ca](mailto:myron.thiessen@forces.gc.ca))**

## 2013 CAPTg Workshop Agenda

Monday, September 9, 2013

# ***Asphalt Paving and Maintenance of Runways – HMA Plant Tour and Maintenance Demo***

Time	Topic	Speaker - Organization
7:30 – 8:00	Registration & Breakfast	
<b>Presentation Session (Westin Hotel)</b>		
8:00 – 8:10	Opening Remarks	<i>Marla Hughesman, CAPTg Chair</i>
