

2018 CAPTG Workshop

Monday, September 10, 2018
Sheraton on the Falls, Niagara Falls, ON

“Constructing and Maintaining Quality Airfield Pavements in the Face of Operational Pressures”

As traffic volumes continue to rise rapidly at airports across the globe, the pressure on airports to minimize down time during pavement construction and maintenance projects is increasing. At the same time, there are on-going pressures to do more with reduced maintenance budgets and extend the life of existing pavements wherever possible. As a result, airport managers, pavement engineers, and contractors in the industry face the difficult task of constructing and maintaining quality airfield pavements with less money and with fewer and shorter windows to actually do the work. Consequently, there is even greater emphasis than ever before on building quality into a pavement right from the start and on new technologies and procedures that reduce construction times and maintenance activities.

Attend the workshop and learn how to “Get In”, “Get Out”, and still incorporate quality into your airfield paving projects.

Come join us for this unique professional development and networking opportunity!

Registration Details

Cost: \$210 plus GST. Breakfast, lunch, and all coffee breaks are included!

Register on-line @ <http://www.swiftconference.org/register.htm>

2018 CAPTG Workshop Agenda "Constructing and Maintaining Quality Airfield Pavements in the Face of Operational Pressures"

Monday, September 10, 2018
 Sheraton on the Falls, Niagara Falls, ON

Time	Topic	Speaker - Organization
07:30 – 08:00	Registration / Hot Breakfast	
08:00 – 08:05	Opening Remarks	<i>Chris Stewart – CAPTG Chair</i>
08:05 – 08:50	Owners Perspective for Quality under Operational Pressure	<i>GTAA / Gander International Airport Authority</i>
08:50 – 09:40	Balanced Asphalt Mix Designs	<i>Vince Aurilio</i>
09:40 – 09:55	Coffee Break	
09:55 – 10:50	Optimized Concrete Mix Designs	<i>Gary Mitchell – American Concrete Pavement Association</i>
10:50 – 11:30	Maintenance of Pavements	<i>Mike Sucee - Crafc</i>
11:30 – 13:30	Location TBD	
13:30 – 14:15	FAA Concrete and Asphalt Specifications Updates (Research Update)	<i>Greg Cline - FAA</i>
14:15 – 14:45	Contractor Perspective on Quality	<i>Contractor TBD</i>
14:45 – 15:00	Coffee Break	
15:00 – 1550	Panel Discussion on Quality	<i>Dave Anderson Moderator</i>
15:50 – 16:30	Panel Discussion on Quality cont'd	<i>GTAA/Vince/Gary/Contractor</i>
16:30 – 17:30	Networking Hour (with Bar Service)	

Workshop sponsored by the following Sustaining Members:
